

Memo 3  
3-10-04  
Music Braille I

1. The proper number for the APH book is:  
8-01350-00 cost is \$36.00

I am sorry for the original information. The on-line store with APH and the telephone person I spoke with this summer gave me the wrong information.

2. I am very sorry about the technology problems we are having with this class. I have nothing to do with it and am getting very frustrated with the system as I am sure many of you are. I know that my boss has made it a top priority to fix, but ....

3. I love that so many vision teachers and transcribers are taking this class. I am sorry if I make my information too music teacher knowledgeable. I sometimes think I am breaking it down, but I guess it hasn't been enough. I hope the "Basics of Key Signature" overhead will help define things better. Please keep asking and telling me to slow down or explain concepts more thoroughly. I would rather teach fewer music braille lessons, so the ones you are learning are understandable.

4. At our next class, I will be on video tape, Dale Groff (music teacher) will be able to answer any questions about print music, and Ashley Canen (a blind college student) will be able to answer any questions you have about braille music. Feel free to ask questions not related to the lesson. She can offer a great in-sight to the world of music by ear and braille.

Have a great week.

Sincerely,

Jennifer Hervey
